

The image shows a trade show booth for Ascent Solar Technologies, Inc. The booth is composed of several curved panels with a blue sky and white clouds background. At the top center, a blue curved panel features the company logo, which consists of a stylized sun icon and the text "Ascent SOLAR". Below this, a large flat-screen television is mounted on a vertical stand. To the left of the television, a black rectangular panel contains white text describing the company and its products. To the right of the television, two more black rectangular panels are stacked vertically, each containing white text. In the foreground, a curved counter with a black top also features the "Ascent SOLAR" logo. The entire booth is set up on a grey carpeted floor.

Ascent SOLAR

Ascent Solar Technologies, Inc.

- Manufactures state of the art, lightweight, flexible, thin-film photovoltaic (PV) modules using CIGS technology.
- These solar modules can be integrated into electronics, military and consumer portable power products, transportation systems, building elements, and space / near-space applications.
